

Public sector

iiCon has been engaged to assist with a number of, major ECM projects for the public sector and we have also developed an Oracle based Patient Administration System for NHS Disablement Service Centres.

In 2006 iiCon was appointed as the European Distributor for Privasoft software. Privasoft solutions for document disclosure under Freedom of Information (FOI), Data Protection Act (DPA) - subject data access and Environmental Information Requests (EIR) have been implemented around the world.

Privasoft software is used in the UK where a growing number of police forces, NHS Trusts, local authorities and governmental bodies have adopted it as their preferred platform for managing information disclosure processes. Our customers in the Public Sector include;

Birmingham NHS Trust
Dutch Ministry of Justice GAK (Dutch government- Social Services)
European Patent Offices (The Hague and Munich)
Havering NHS Trust
Human Fertilisation and Embryology Authority (HFEA)
National Institute for Clinical Excellence (NICE)
Pennine Care Trust
