

Specialist Hardware

Investment in ECM technology will require that you review your existing IT infrastructure and assess what impact ECM will have on your current systems. Iicon provides advice to help you assess what servers, workstations, monitors, scanners and storage devices are most suitable for your needs.

There are a number of ways in which we can work with you.

- We can provide you with just the specialist ECM hardware that you require.
- We can engage with your existing procurement channel to ensure that appropriate ECM specialist hardware is specified.
- We can deliver a "turnkey" ECM solution including all hardware and software. Iicon provides all the leading makes of production scanners including; Bowe Bell & Howell, Canon, Fujitsu and Kodak.

For servers, workstations and storage devices we also recommend the leading manufacturers such as IBM, HP and Dell. All equipment is supplied with full manufacturers warranty and extended on-site hardware support contracts which are tailored to meet your specific requirements.
